

Male Hormonal Support

Good Herbs Male Hormonal Support is made with pure, unaltered, chemical-free natural herbs that provide male hormonal health support. Proper hormonal balance in men is essential for overall physical and mental health. Male Hormonal Support contains a proprietary herbal blend of organic or wild-crafted herbs that help maintain healthy male hormonal levels including testosterone and DHEA, helping to promote a healthy sex drive in addition to promoting healthy mental function and memory.

BENEFITS OF MALE HORMONAL SUPPORT

In women it is called Menopause and in men it is called Andropause. The levels of the Male Sex Hormone – Testosterone decline with advancing age which causes a change in the ratio of Estrogen to Testosterone in the body. A point is reached when the levels of Testosterone become so low that Estrogen finally begins to dominate. It is important to know that adequate levels of testosterone in the body limits estrogen effects, thus preventing Prostate problems.

This Male Hormone Formula contains herbs that help regulate and normalize healthy male hormonal levels including testosterone and DHEA. This formula will help rejuvenate, strengthen and nourish the male reproductive system for optimal health. Additionally, this tonic promotes healthy mental functioning and memory. After about the age of 40 in our society and with the typical lifestyles of today, it is said that the natural process of aging affects (diminishes) sexual abilities and desire by creating distinct physiological changes in the body. Operating more sluggishly and producing less hormones can lead to a significant drop in natural testosterone levels...the hormone related to sexual activity in men (and women). Because of the synergistic effect of herbs in this formula, many men are helped tremendously by taking it daily. The herbs in this formula include the following:

Dong Quai

Dong quai has been used by the Chinese for more than two thousand years, as a strengthener of the heart, lung, spleen, liver and kidney meridians and as a tonic for the blood. It is traditionally characterized as a warm atmospheric energy that promotes blood circulation.

Jujube Date

Uplifting and calming fruit, Jujubes are known for having a soothing effect on the mind and body. That's exactly why they've been traditionally used as a natural antidepressant, anti-anxiety and anti-stress medicinal food.

Astragalus

The hormone balancing property of Astragalus helps in regulating blood pressure and blood sugar levels. Astragalus has a protective effect on the beta cells of the pancreas that secretes insulin. It counteracts insulin resistance where the receptors of insulin become progressively desensitized to it because of high levels of circulating hormone.

Blessed Thistle

Blessed thistle herb is also considered a depurative, having diuretic and diaphoretic properties; these actions help to purify the system and rid the body of toxins. Blessed thistle's medicinal actions help give support to the liver and help it to repair itself.

Ginseng (Panax)

Panax ginseng is a true ginseng, although it has a milder and more controlled action compared to the Chinese ginseng. It supports the hypothalamus-pituitary-adrenal (HPA) axis, helping maintain correct hormonal balance. However, it does not overstimulate the endocrine system.

Male Hormonal Support contains a proprietary herbal blend of organic or wild-crafted herbs that help maintain healthy male hormonal levels including testosterone and DHEA, helping to promote a healthy sex drive in addition to promoting healthy mental function and memory.

BENEFITS OF MALE HORMONAL SUPPORT

Lycium

Lycium is one of the fundamental sexual tonic herbs in Chinese herbalism, especially when blended with Qi tonics such as Astragalus and Ginseng, and with astringent herbs such as Schizandra.

Rehmannia

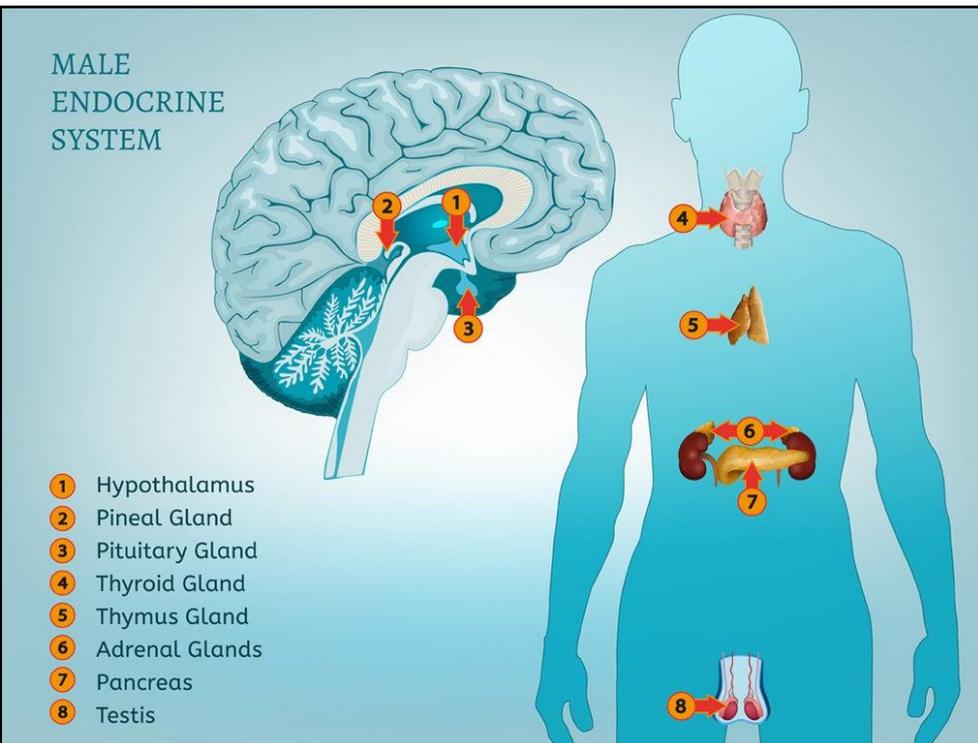

rehmannia is the number one most important herb in the Chinese system for disorders related to the kidneys and adrenal glands. According to TCM, kidney imbalances can cause weakness in the legs and lower back, and also hearing loss. Because rehmannia is used to restore adrenal function and purify the kidneys, it is considered a helpful tonic for these conditions.

Schizandra

Schizandra fruit, "the herb that does it all." It develops and protects the primary energies of life. Schizandra is an excellent herb for reducing stress. When the body is stressed, it releases a stress hormone called cortisol.
